

# CSCI-351

## Data communication and Network

### **Lecture 1: Logistics**

**(a.k.a., the most important thing  
that won't be on any exam)**

# Hello!

2

- Welcome to CSCI-351

- ▣ Are you in the right classroom?

- ▣ Okay, good.

- Who am I?

- ▣ Professor Taejoong (Tijay) Chung

- ▣ [tjc@cs.rit.edu](mailto:tjc@cs.rit.edu)

- ▣ Office Hours: Tue 2:00pm — 3:30pm (GOL-3525) and email to schedule an appointment

# Anti-Social Media

3

- Don't friend me on Facebook
- LinkedIn: I probably won't add you, so please don't ask

# Why Take This Course?

4

- How many of you have checked your e-mail, FB, text...

# Why Take This Course?

4

- How many of you have checked your e-mail, FB, text...
  - ▣ Today?

# Why Take This Course?

4

- How many of you have checked your e-mail, FB, text...
  - ▣ Today?
  - ▣ In the past hour?

# Why Take This Course?

4

- How many of you have checked your e-mail, FB, text...
  - ▣ Today?
  - ▣ In the past hour?
  - ▣ Since I started talking?

# Computer networks are ubiquitous

5

- Networks touch every part of our daily life
  - ▣ Web search
  - ▣ Social networking
  - ▣ Watching movies
  - ▣ Ordering merchandise
  - ▣ Wasting time

# Computer networks are ubiquitous

5

□ Networks touch every part of our daily life

- ▣ Web search
- ▣ Social networking
- ▣ Watching movies
- ▣ Ordering merchandise
- ▣ Wasting time

The Google logo is displayed in its characteristic multi-colored font, with the letters 'G', 'o', 'o', 'g', 'l', and 'e' in blue, red, yellow, blue, green, and red respectively.

# Computer networks are ubiquitous

5

- Networks touch every part of our daily life
  - ▣ Web search
  - ▣ Social networking
  - ▣ Watching movies
  - ▣ Ordering merchandise
  - ▣ Wasting time

# Computer networks are ubiquitous

5

- Networks touch every part of our daily life
  - ▣ Web search
  - ▣ Social networking
  - ▣ Watching movies
  - ▣ Ordering merchandise
  - ▣ Wasting time

# Computer networks are ubiquitous

5

□ Networks touch every part of our daily life

- ▣ Web search
- ▣ Social networking
- ▣ Watching movies
- ▣ Ordering merchandise
- ▣ Wasting time

# Computer networks are ubiquitous

5

- Networks touch every part of our daily life
  - ▣ Web search
  - ▣ Social networking
  - ▣ Watching movies
  - ▣ Ordering merchandise
  - ▣ Wasting time

# Computer networks are ubiquitous

6

- Networking is one of the most critical topics in CS
  - ▣ There would be no...
    - Big Data
    - Cloud
    - Apps or Mobile Computing
  - ▣ ... without networks

# Goals

7

- Fundamental understanding about computer networks
  - ▣ All the way from bits on a wire...
  - ▣ ... across the ever-evolving Internet...
  - ▣ ... to a complex application
- Focus on software and protocols
  - ▣ Not hardware
  - ▣ Minimal theory
- Project-centric, hands on experience
  - ▣ Programming APIs
  - ▣ Network Simulation
  - ▣ Application-level protocols

# Online Resources

8

- <https://taejoong.github.io/courses/csci-351/>
  
- Class forum is on Mycourses
  - ▣ Sign up today!
  
- When in doubt, post to Mycourses
  - ▣ Mycourse is preferable to email
  - ▣ Use #hashtags (#homework1, #lecture2, #project3, etc.)

| No. | Date      | Topic                                    | Hw. Due | Proj. Due         |
|-----|-----------|------------------------------------------|---------|-------------------|
| 01  | 08/28 TUE | Intro and Course Overview                |         |                   |
| 02  | 08/30 THU | History of the Internet                  |         |                   |
| 03  | 09/04 TUE | Networking Architecture                  |         |                   |
| 04  | 09/06 THU | Socket Programming                       |         |                   |
| 05  | 09/11 TUE | Physical / Link layer 1                  |         |                   |
| 06  | 09/13 THU | Link Layer 2                             | Hw. 1   |                   |
| 07  | 09/18 TUE | Bridging and Switching                   |         | Proj. 1 Milestone |
| 08  | 09/20 THU | Internet Protocol 1                      |         |                   |
| 09  | 09/25 TUE | Internet Protocol 2                      | Hw. 2   | Proj. 1           |
| 10  | 09/27 THU | NAT                                      |         |                   |
| 11  | 10/02 TUE | Intra-domain Routing                     |         |                   |
| 12  | 10/04 THU | Inter-domain Routing                     | Hw. 3   |                   |
| –   | 10/09 TUE | <i>No class—October Break</i>            |         |                   |
| –   | 10/11 THU | <i>Midterm exam</i>                      |         | Proj. 2 Milestone |
| 13  | 10/16 TUE | Broadcast and Multicast                  |         |                   |
| 14  | 10/18 THU | Transport Layer 1                        |         | Proj. 2           |
| 15  | 10/23 TUE | Transport Layer 2                        |         |                   |
| 16  | 10/25 THU | Transport Layer 3                        |         |                   |
| 17  | 10/30 TUE | Application Layer: DNS                   |         |                   |
| 18  | 11/01 THU | Application Layer: HTTP                  | Hw. 4   |                   |
| 19  | 11/06 TUE | Client & Server and Peer-to Peer Network |         | Proj. 3 Milestone |
| 20  | 11/08 THU | CDN                                      |         |                   |
| 21  | 11/13 TUE | Network Security Basics                  |         | Proj. 3           |
| 22  | 11/15 THU | HTTPS                                    | Hw. 5   |                   |
| 23  | 11/20 TUE | DNSSEC                                   |         |                   |
| –   | 11/22 THU | <i>No class—Thanksgiving Holiday</i>     |         |                   |
| 24  | 11/27 TUE | TBD                                      |         |                   |
| 25  | 11/29 THU | TBD                                      |         | Proj. 4 Milestone |
| 26  | 12/04 TUE | TBD                                      |         |                   |
| 27  | 12/06 THU | Final Reviews                            |         |                   |
| –   | TBA       | <i>Final exam</i>                        |         | Proj. 4           |

# Teaching Style

10

- I am a network researcher
  - ▣ Things make sense to me may not make sense to you
  - ▣ I'm a non-native speaker, if something doesn't make sense to you please ask me.
- Solution: ask questions!
  - ▣ Seriously, ask questions
  - ▣ Standing up here in silence is very awkward
  - ▣ I will stand here until you answer my questions
- Help me learn your names
  - ▣ Say your name before each question

# Textbook

11

- Computer Networks: A Systems Approach
  - ▣ Peterson and Davie
  - ▣ 5<sup>th</sup> Edition

# Workload

12

|                |     |
|----------------|-----|
| Projects (~5)  | 45% |
| Midterm        | 15% |
| Final          | 25% |
| Homeworks (~5) | 15% |

# Projects

13

- This course is project-centric
  - ▣ Designed to give you real networking experience
  - ▣ Start early!
  - ▣ Seriously, start early!
- ~5 projects
  - ▣ Due at 11:59:59pm on specified date
  - ▣ **Working code is paramount**

# Project Logistics

14

- Languages
  - ▣ You may choose the language for the other projects
    - Code must compile on the Glados ([glados.cs.rit.edu](http://glados.cs.rit.edu))
- Project I will be released next week
- Project questions?
  - ▣ Post them on Mycourses!

# Project Groups

15

- Projects will be completed in groups of two
  - ▣ Unless we have odd numbers...
  - ▣ Don't mix undergrads/grads (different requirements)
- Partner selection
  - ▣ Pick whoever you want
  - ▣ You may switch partners between projects
  - ▣ Do not complain to me about your lazy partner
    - Hey, you picked them
- Can't find a partner?
  - ▣ Post a message on Mycourse!

# Late Policy

16

- Assignments are due at 11:59:59, **no exceptions**
  - ▣ 1 second late = 1 hour late = 1 day late
  - ▣ 10% off per day late up to 4 days

# Exams

17

- Midterm and Final
  - ▣ 2 hours, in class
  - ▣ The final will be **cumulative**
- All exams are:
  - ▣ Closed book, closed notes, leave the laptop at home
  - ▣ No smartphone

# Grade Changes

18

- Each student gets two challenges
  - ▣ Modeled after NFL system
  - ▣ If you ask for a regrade and you are wrong, you lose a challenge
  - ▣ When you are out of challenges, you cannot ask for regrading
- Must come to office hours with the following in writing:
  1. Specify the problem(s) you want regraded
  2. For each problem, explain why the grade is in error
- Don't sweat the small stuff
  - ▣ Regrading does not make me a happy Professor
  - ▣ If the change is  $<5\%$  of the grade, don't bother
- More details will be on the website

# Cheating

19

- Do not do it
  - ▣ Seriously, don't make me say it again
- Cheating is an automatic zero
  - ▣ Will be referred to the university for discipline and possible expulsion
- Project code must be original
  - ▣ You and your groupmates only
    - Unless we give you starter code, obviously
  - ▣ StackOverflow/Quora are not your friends
  - ▣ If you have questions about an online resource, ask us

# Final Grades

20

- At the end of the semester, all of your grades will sum to 100 points
- Final grades are based on a simple scale:
  - ▣ A >92, A- 90-92, B+ 87-89, B 83-86, B- 80-82, ...
- I do not curve grades

# 21 Questions?
